# ⭐ Year 4 Times Tables Check – A Quick Guide for Families ⭐

The Multiplication Tables Check (MTC) is a short online activity that helps us see how confidently children know their times tables up to 12 × 12. In 2026, children will complete it during a two-week window starting **Monday 1st June**. The MTC ensures children have a strong foundation in multiplication facts, which is considered vital for future success in mathematics. It also helps schools identify pupils who may need additional support in Year 5.

## What parents need to know

- It's completed on a computer or tablet in school.
- There are 25 quick questions and the whole thing takes less than 5 minutes.
- There isn't a pass or fail — it just helps teachers know how to support children.
- Children have 6 seconds per question with short breaks between them.
- The check is designed to be inclusive. Parents with concerns about their child accessing the check should discuss this with the school's class teacher. Extra support and access arrangements are available if needed.

## How you can help at home

- Keep practice short and relaxed — little and often works best.
- Use fun resources - games, songs, ttrockstars.com or BBC Supermovers videos.
- Focus on tricky tables like 7s and 8s as these often require more focus.
- Chat with your child's teacher if you want extra ideas.

$2 × 3 = 6$ 　　　　　　$4 × 5 = 20$ 　　　　　　$7 × 8 = 56$

⭐ Practice a little every day! 　　🎵 Try songs and games 　　🚀 Have fun learning!
